## CAREER OBJECTIVE

---

Seeking a challenging position in a high-level work environment where I can use my utmost potential skills and contribute to continuous improvement that will fortify the company's image.

## WORK EXPERIENCE

---

### Coca-Cola Europacific Aboitiz Philippines

April 2025 - June 2025

#### - EOSH (Environmental, Occupational, Health, and Safety)

Internship

Santa Rosa RGB Laguna Plant · Onsite

- Conducted GEMBA walks to inspect production lines and ensure safety compliance.
- Audited and encoded third-party manhours and headcounts using MS Excel.
- Developed PowerPoint presentations and video content for a company event.
- Monitored and analyzed water pH levels to maintain environmental standards.

### Takealot.com - Product Lister

February 2021 - July 2023

South Africa · Remote

Working Student

- Analyzed competitor pricing and optimized product listings using Excel.
- Edited product images using Adobe Photoshop to improve visual quality.
- Trained and mentored five of my colleagues, just three months into the role.
- Managed multiple portal stores, ensuring our products appear first when searching for them.

## SKILLS

---

- **Languages:** Python, HTML, CSS, JavaScript, and SQL
- **Frameworks:** Pandas, Numpy, Matplotlib, and Seaborn
- **Tools & Platforms:** Power BI, MySQL, Excel, Visual Studio Code, Jupyter Notebook, PyCharm
- **Technical skills:** Data Visualization, Data Scraping, ETL, Dashboard design, and API
- **Soft Skills:** Teamwork, Communications, Product Marketing, and Analytical Thinking

## CERTIFICATIONS / SEMINARS

---

- [Scientific Computing with Python](#) - freeCodeCamp
- [Data Analysis with Python](#) - freeCodeCamp
- [Data Fundamentals](#) - IBM SkillsBuild
- [Microsoft Power BI Desktop for Freelancer](#) - DataSense Analytics
- [Excel Associate Training Program](#) - Data Analytics Philippines
- [Creative Web Design](#) - TESDA
- [Responsive Web Design](#) - freeCodeCamp
- A full list of certifications is available on my LinkedIn profile

## EDUCATION

---

### STI College Calamba

Information in Mobile App and Web Development

June 2019 - June 2021

### STI College Calamba / Santa Rosa

Bachelor of Science in Computer Engineering

September 2021 - July 2025

### TESDA

Vocational: Creative Web Design (102 Hours)

Nov 19, 2024 - Dec 11, 2024

## PROJECTS

---

[Data Cleaning and EDA Using MySQL & Data Visualization](#) | *MySQL and Power BI* **July 2025**

- MySQL for data cleaning and exploratory data analysis (EDA). Connected Power BI to MySQL for visualization.

[Personal Portfolio](#) | *HTML, CSS, Javascript, and Web Design* **April 2025**

- Created a portfolio site from scratch using HTML, CSS, and JavaScript.

[Financial Report](#) | *Power BI, Dashboard Design, ETL Process, Data Visualization, and DAX* **February 2025**

- Participated in a Power BI Contest, provided with an example dataset. Tasked with building a dashboard using ETL (Extract, Transform, Load) processes and DAX (Data Analysis Expressions).

[Youtube sports channel analysis](#) | *Python, Pandas, Seaborn, Jupyter, and API* **January 2025**

- A YouTube sports channel analysis project, scraped data, and analyzed views, uploads, monthly activity, and top 10 videos, with visualizing performance insights.

[Data scraping languages by total numbers of speakers](#) | *Python, Pandas, BeautifulSoup, Jupyter* **December 2024**

- Data scraping Wikipedia data on global language speakers to analyze and highlight languages and their speaker counts.

**Capstone Project Automated PET Bottles Reverse Vending Machine Using Solar Power** | **Mar 2024 - Nov 2024**  
*C++, Leadership, Electronics, Arduino IDE*

- Led the development of our capstone project, a vending machine that exchanges PET bottles for non-perishable food.
- Programmed in C++ to integrate sensors, microcontroller, LCD, GSM, SD card, and servo motors.
- Integrate a 60W solar-powered system with AC switching, a charge controller, and an inverter for efficient power.
