CAREER OBJECTIVE

Seeking a challenging position in a high-level work environment where I can use my utmost potential skills and contribute to continuous improvement that will fortify the company's image.

WORK EXPERIENCE

Coca-Cola Europacific Aboitiz Philippines   **April 2025 - June 2025**
- EOSH (Environmental, Occupational, Health, and Safety)   Internship
Santa Rosa RGB Laguna Plant · Onsite

- Assisted in EOSH-related reports, presentations, and visual materials.
- Audited and encoded third-party manhours and headcounts using MS Excel.
- Monitored wastewater treatment, including influent and effluent processes, and water pH level.
- Supported safety onboarding and orientation for employees, interns, and third-party personnel.
- Conducted GEMBA walks to inspect production lines, identify potential hazards, and ensure safety compliance.
- Coordinate with Contractors and Third-Party personnel regarding work permits, site safety, and compliance documentation.

Takealot.com - Product Lister   **February 2021 - July 2023**
South Africa · Remote   Freelancing

- Managed multiple portal stores.
- Edited product images using Adobe Photoshop to improve visual quality.
- Trained and mentored five of my new colleagues, just three months into the role.
- Optimized product listings, ensuring our products appear first when searching for them.

SKILLS

- **Programming Languages:** HTML, CSS, and JavaScript
- **Tools & Platforms:** Power BI, Microsoft Applications, and Visual Studio Code
- **Technical Skills:** Data Analysis & Visualization, Electronics, Embedded Systems, and Electronics Troubleshooting
- **Soft Skills:** Teamwork, Communications, Strong Work Ethic, and Analytical Thinking

---

STI College Calamba / Santa Rosa   **September 2021 - July 2025**
Tertiary: Bachelor of Science in Computer Engineering

TESDA   **Nov 19, 2024 - Dec 11, 2024**
Vocational: Creative Web Design (102 Hours)

STI College Calamba   **June 2019 - June 2021**
Senior High School: Information Technology in Mobile App and Web Development

---

CERTIFICATIONS / SEMINARS

- [Microsoft Power BI Desktop for Freelancer](#) - DataSense Analytics
- [Excel Associate Training Program](#) - Data Analytics Philippines
- [Creative Web Design](#) - TESDA
- [Responsive Web Design](#) - freeCodeCamp
- A full list of certifications is available on my LinkedIn profile

PROJECTS

[Company Layoff Trend Analysis (2020-2024)](#) | *MySQL and Power BI*   **July 2025**
- Use MySQL for data cleaning and exploratory data analysis (EDA). Connected MySQL to Power BI for data visualization.

[Personal Portfolio](#) | *HTML, CSS, Javascript, and Web Design*   **April 2025**
- Created my personal portfolio website using HTML, CSS, and JavaScript.

[Financial Report](#) | *Power BI, ETL Process, Data Visualization, and DAX*   **February 2025**
- Participated in a Power BI Contest, provided with an example dataset. Tasked with building a dashboard using ETL (Extract, Transform, Load) processes and DAX (Data Analysis Expressions).

Capstone Project Automated PET Bottles Reverse Vending Machine Using Solar Power | **Mar 2024 - Nov 2024**
C++, Electronics, and Arduino IDE
- Led the development of our capstone project, a vending machine that exchanges PET bottles for non-perishable food.
- Programmed in C++ to integrate sensors, microcontroller, LCD, GSM, SD card, and servo motors.
- Integrate a 60W solar-powered system with AC switching, a charge controller, and an inverter for efficient power.
